

Tiara Sofa

I'm an Informatics Engineering student at Dian Nuswantoro University with hands on experience in developing web applications and information systems using React.js, Next.js, Laravel, and MySQL. Through academic projects, professional experiences, and mentoring activities, I have developed strong technical, problem-solving, and collaboration skills.

EDUCATION

Dian Nuswantoro University
Bachelor of Informatics Engineering

Semarang, Central Java
Sept 2023 - Present
GPA: 3.74

Relevant Coursework: Built and launched multiple full stack web applications serving real world use cases, demonstrating strong self learning abilities, problem solving skills, and a passion for technology

TECHNICAL SKILLS

Computer: PHP, JavaScript, TypeScript, SQL, HTML5, CSS3, Microsoft Word, Microsoft Excel

Tools: Laravel, React.js, Next.js, Tailwind CSS, MySQL, PostgreSQL, Git, Docker, Figma

Skills: Frontend Development, Full Stack Development, REST API Development, Database Design

RELEVANT EXPERIENCE

Bengkel Koding

Semarang, Central Java

Frontend Developer

Sept 2025 – present

- Developed responsive and interactive user interfaces for web applications using React.js and Next.js.
- Collaborated with backend developers to integrate RESTful APIs into frontend applications.
- Implemented reusable UI components to improve development efficiency and maintainability.

Web Development Teaching Assistant

Sep 2025 – Feb 2026

- Delivered Laravel learning sessions to university students.
- Guided students through web development concepts including MVC, routing, CRUD, and authentication.
- Assisted students during practical implementation and debugging.

Project Mentor

Apr – present 2026

- Guide students in planning and developing real-world projects.
- Conduct code reviews and monitor development progress.
- Support problem-solving and decision-making

Badan Narkotika Nasional (BNN) Provinsi Jawa Tengah

Semarang, Central Java

Frontend Developer

Dec 2025 – Present

- Developed and maintained responsive user interfaces for internal web based information systems.
- Collaborated with backend developers to integrate APIs and ensure seamless data flow.
- Participated in testing, debugging, and feature enhancement to improve system usability and reliability.

EXTRACURRICULAR EXPERIENCE

Dian Nuswantoro Computer Club

Semarang, Central Java

Mobile Development Training

Sep – Oct 2023

- Learned mobile application development fundamentals using Flutter and Dart.
- Developed cross platform applications through project-based learning activities.
- Applied state management techniques using Provider to manage application data and user interactions.
- Gained experience in designing responsive mobile user interfaces and application workflows.

<i>Web Developer Training</i>	<i>Sep – Oct 2024</i>
• Participated in an intensive web development training program covering modern frontend technologies. • Applied HTML, CSS, JavaScript, and React fundamentals to develop responsive web applications. • Built multiple hands on projects, including a personal portfolio website. • Gained practical experience in component-based development and responsive user interface design. • Enhanced technical and problem-solving skills through project-based learning and collaboration.	

PROJECTS

Alumni Information System, University Project - Laravel, MySQL, Laravel Reverb, Next.js	Apr – Jun 2026
• Continued development of an alumni management platform connecting graduates, students, and industry partners. • Developed discussion forum features and implemented real-time communication using Laravel Reverb. • Optimized API performance and database queries to improve scalability and user experience.	
Sistem Asesmen Terpadu BNN Jawa Tengah, Internship - Next.js, TypeScript, PostgreSQL	Dec 2025 - Present
• Contributed to the development of a web based information system supporting organizational operations. • Built responsive user interfaces and collaborated with development teams to improve usability. • Assisted in testing, debugging, and feature implementation to enhance system reliability.	
Poliklinik Management System, Academic Project - Laravel, MySQL, Tailwind CSS	Mar 2026
• Developed a healthcare management system for patient registration, doctor scheduling, and medical record management. • Implemented role-based access control and designed relational database structures using MySQL. • Improved administrative efficiency by digitizing healthcare workflows.	
Bengtix Event Ticketing Platform, Academic Project - Laravel, MySQL, REST API	18 Dec 2025 – 5 Jan 2026
• Developed event registration and ticket booking functionalities using Laravel and modern web technologies. • Designed RESTful APIs and participant management modules to streamline event operations. • Applied scalable development practices to support future system expansion.	
Cashier System, Independent Project - Laravel, MySQL, Bootstrap	May 2026
• Developed a point of sale system for transaction processing and inventory management. • Implemented sales reporting and stock monitoring features. • Improved operational efficiency through automated transaction workflows.	

CERTIFICATION

CCNA: Introduction to Networks - CCNA	Aug 2025
Schema Of Associate Data Scientist - BNSP	Sep 2025
Genetic Algorithm- Bengkel Koding	Oct 2025
IBM Machine Learning - Coursera	Jan 2026
Schema Of Web Developer - BNSP	Apr 2026
IBM and ISC2 Cybersecurity Specialist - Coursera	Apr 2026
